

Moderate Commercial Grade: Suitable for extreme residential traffic and medium to heavy commercial traffic.

The Techwear layer offers a durable, no-wax, scratch and impact resistant surface that cleans in a flick of a wrist.

New! A state-of-the-art silicon based moisture barrier at the planks edges to prevent moisture ingress at the seams.

An HDF inner core featuring a density from 880 to 920 kg/m<sup>2</sup> for superior resistance to marks and dents.

2-Lock? Because it's so easy. Because it's so quick and so strong. 2-Lock unity is strength!

Antistatic properties according to EN 1815 (<2kv).

Tarkett handscraped effect combines heavy, medium and light scrap thus creating an uneven and worn look.

An Outstanding structure combining the embossed-in-register technique with subtle manual scaping.

Backed by Tarkett's international 10-15 years residential guarantee.(See general conditions of Guarantee)

2 sides beveled 2V

4 sides beveled 4V

Tarkett Laminates are beveled in their width and length (4-sided effect) or on their length (2-sided effect) to perfectly match the look of a genuine hardwood floor.
