# STEPPING INTO THE FUTURE

Comfortable, clean, and durable flooring contributes to better learning environments at all ages. From crawling toddlers in nurseries, to university students spending late nights in libraries we offer solutions for all. We have developed flooring solutions adapted to the design and functional requirements of classrooms, sports halls, laboratories and many other rooms in educational facilities. Because students represent the next generation, we are committed to developing sustainable solutions that meet the highest standards in accessibility, hygiene, and indoor air quality.

**STAIRCASES**

A photograph of a modern library interior. On the left, there are tall, light-colored wooden bookshelves filled with books. In the center, a bright orange armchair sits on a light-colored, textured vinyl floor. In the background, a white door is set into a dark purple wall. The ceiling is white with recessed lighting. The entire image is framed by a thick blue border.

# HOMOGENEOUS VINYL

Composed of a single layer of vinyl, compact homogeneous vinyl floors are glued to the sub-floor and welded. Compact homogeneous vinyl floorings are tough and ultra-durable solutions for heavy and very heavy traffic areas, especially recommended for applications in healthcare and education for their resistance and ease of cleaning. Tarkett homogeneous vinyl floors are the only vinyl floors on the market that can be dry-buffed to avoid heavy cleaning protocols and to reduce maintenance costs by 30% over the floor's lifespan. Acoustic, static-conductive, static-dissipative and anti-slip versions are also available.

# HETEROGENOUS VINYL

---

Compact heterogeneous vinyl is a flooring composed of several layers, including a printed layer, for limitless design possibilities. Available in both tile and sheet format, these floors offer creative solutions for commercial and residential use. Offering high durability, they are ideal for heavy traffic applications in hospitals and schools. A Tarkett production, these floors feature a patented surface treatment, TopClean XP, for extreme durability and easy maintenance. Acoustic and anti-slip versions are also available.

## LUXURY VINYL TILE

Floor is the new playground with luxury vinyl tiles. Produced in both tile and plank format across a range of patterns, colours and styles, they offer endless layout possibilities thanks to their modular format. Luxury vinyl tiles come in several installation options: glue-down for heavy traffic, loose-lay for quick renovation and click system for floating installation. Treated with our Top Clean surface protection for easy maintenance and extra resistance to scuffs, scratches and stains.

# SPORTS FLOORING INDOOR

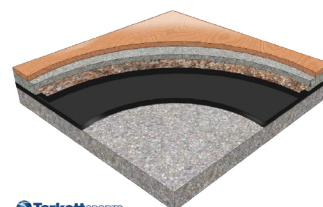

## HARO SPORTS — GERMANY

First Floor provides high-quality wooden sports floors from Haro Sports, suitable for competitions held on an international level. These floors are approved by International Sports Federations, such as WSF, WBF, etc.

## PVC SPORTS FLOORING

Omnisports is becoming one of the most popular gym floors in the world. It's the perfect gym floor for schools, universities, and community centers, where these sports or events might occur on any given day.

# SPORTS FLOORING OUTDOOR

We have ITF approved, rubberized surfaces by Nova Sports (USA). These courts have a great appearance, exceptional durability, and precise speed. Rubberized surfaces are available for outdoor tennis, basketball, volleyball courts, as well as running tracks.

## NOVACRYLIC ULTRA CUSHION SYSTEM

Nova Ultra Cushion is ITF approved tennis court system. Here, the number of layers is nine which consists of 2 coats of Ultra Cushion (Large Rubber) system, 3 coats of Nova Cushion (very fine EPDM rubber granules) and 2 coats of Nova combo surface.
